Malabe, Sri Lanka

SUMMARY

Motivated Data Science undergraduate with a strong interest in data analysis, business intelligence, and data-driven decision making. Skilled in data warehousing, ETL processes, OLAP reporting, and statistical analysis, with a passion for learning new technologies and applying analytical thinking to real-world problems. Seeking an opportunity to gain practical experience and contribute to meaningful data solutions.

EDUCATION

Sri Lanka Institute of Information Technology | Malabe, Sri Lanka

Data Science(2023 - Present) | Graduation Year - 2027

- CGPA : 3.89
- Dean's list awards - 4 Consecutive Semesters

Rahula College, Matara

G.C.E. Advanced Level - Physical Science Stream (Mathematics) | 2022(2023)

- Successfully completed with 3C s.
-

PROJECTS

Data Warehouse & Business Intelligence Project | Technologies : Power BI, SSIS, SSAS, Excel

- Developed a data warehouse and business intelligence solution to analyse road accident data.
- Designed a star schema with fact and dimension tables for accident severity, location, date, and environmental conditions.
- Built ETL workflows using SSIS to extract, clean, transform, and load raw accident data into the data warehouse.
- Implemented data profiling, lookup transformations, data cleansing, and slowly changing dimensions to improve data quality.
- Created an SSAS cube to perform OLAP analysis such as drill-down, roll-up, slicing, and dicing.
- Prepared BI reports to identify accident trends and support data-driven decision making.

Athletes Performance vs Motivation Analysis | Technologies : R Language & R Studio

- Conducted an end-to-end statistical analysis project on athlete motivation and performance.
- Performed data cleaning, exploratory data analysis, and statistical modelling using R.
- Applied correlation and regression techniques to examine whether motivated athletes show higher performance levels.
- Evaluated model results and interpreted key factors affecting athlete performance.
- Presented analytical findings with visualizations and evidence-based conclusions.

TECHNICAL SKILLS

Java, Git, Github, R, PowerBI, SSIS, SSAS, Excel, Nodejs, MongoDB, Express, React, JavaScript, TailwindCSS, PHP, HTML, CSS, C, C++, DBMS, SQL

SOFT SKILLS

Problem solving, Team working, Adaptability, Good communication
